**Supporting foreign companies in structuring and  
executing successful entry into Vietnam**

**Think Global. Act Local. Deliver Results**

# ABOUT GTI PARTNER

**GTI PARTNER**  
Your Partner in Emerging Vietnam

GTI Partner is a Vietnam-based advisory and execution firm supporting foreign companies through market entry, structuring, and operational setup.

We focus on translating business intent into clear, compliant, and executable structures that work in practice within Vietnam's regulatory and operating environment.

# OUR MISSION

A man in a dark blue shirt and striped tie is speaking into a microphone at a podium. Behind him, a diverse group of people are seated, listening attentively. The background is slightly blurred, focusing attention on the speaker.

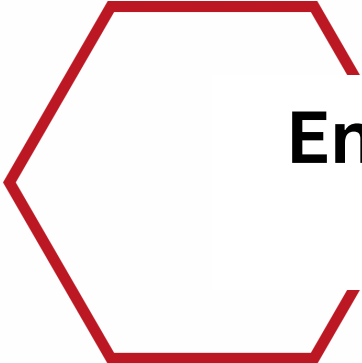

*To empower SMEs worldwide to succeed in Vietnam by providing market entry expertise, operational support, and growth-driven strategies.*

# WHAT WE DO

## FOR OUR GLOBAL CLIENTS

**GTI PARTNER**  
Your Partner in Emerging Vietnam

**Entry Strategy &  
Structuring**

**Investment Structuring  
& Setup**

**Market Entry  
Execution**

# HOW WE WORK

**GTI PARTNER**  
Your Partner in Emerging Vietnam

Phase 01

## **Strategy & Structuring:**

Define the right entry model and framework

Phase 02

## **Incorporation & Licensing:**

Execute the formal setup and approvals

Phase 03

## **Market Entry Execution:**

Ensure the business is operational and aligned with the initial structure

# WHY CHOOSE GTI PARTNER?

## Execution-Focused

We are not purely advisory. We stay involved through implementation

## Practical, Not Theoretical

Focus on what works in Vietnam in real conditions, based on how regulations are applied.

## Structure-First Approach

We define the right entry model before any setup begins.

## Proven Expertise

Extensive experience in regulatory navigation, risk reduction, and sustainable market growth.

## Aligned with Foreign Investors

Designed for companies entering Vietnam for the first time

**We translate Vietnam's regulatory and operating environment into a clear, executable market entry pathway.**
